HOW THE SERIES WORKS

Build up chapter by chapter, then master the full paper

Part test	One part of the class syllabus (about a quarter), to test each block right after you study it.
Combined test	Two parts together, so earlier chapters stay fresh.
Full class test	The complete Class 11 or Class 12 syllabus in one paper (two papers per class).
Full syllabus test	Class 11 + 12 together with real NEET chapter weightage. 30 papers to build exam stamina.

BEFORE YOU START

Instructions to candidates

Based on the NTA's NEET (UG) instructions, adapted for the online test.

General

- The test is 3 hours (180 minutes) long. The timer on screen shows the time left, and the test is submitted automatically when it ends.
- 180 questions, all compulsory, in four sections: Physics (1–45), Chemistry (46–90), Botany (91–135), Zoology (136–180).
- Each question has four options and only one correct answer.

Marking

- +4 for a correct answer, -1 for a wrong answer, 0 for a question not answered. Maximum marks 720.

Answering

- Choose an option and tap Save & Next. Clear removes your answer. Save & Mark saves and marks for review; Mark & Next marks without saving.
- Answered questions that are also marked for review are evaluated.
- Move with Back / Next or the question palette, and change answers any time before you submit.

Exam conduct

- Sit each test in one go, in a quiet place, with a pen and blank sheets for rough work.
- No calculator, phone, books or other help. Your result is only meaningful if you test honestly.
- After submitting you get your score, accuracy, time analysis and detailed solutions for all 180 questions.
